Mentoring & Skill Development

“The Ability Specialists Mentoring and Skill Development program has made a big difference for my son, Jose. He talks more now, especially with the group. He is definitely more social and comfortable around people. It has always been hard for him to go places with other people, but with Ability Specialists, he is comfortable and wants to go.

Ability Specialists knows what each individual needs, and they work on those specific things. Through the Mentoring Program, Jose has learned how to coordinate two or three tasks at the same time, and how to plan for events. He is much more independent.”

— ERIKA CAVERO, MOTHER OF ABILITY SPECIALISTS MENTORING & SKILL DEVELOPMENT PROGRAM PARTICIPANT

At-A-Glance

This is an add on service that we provide to participants who already attend our group programs. Locations and times are determined based on each participant's individual needs.

The Ability Specialists Mentoring and Skill Development Program promotes practical life-skills. Through one-on-one tutoring with dedicated mentors, participants address areas of need through individualized programs.

Among other lessons, participants learn:

- Cooking
- Cleaning
- Social skills
- Driving
- Reading & writing
- Personal hygiene
- Complex problem solving
- Follow through
